Background

An Unaccompanied Veteran is someone who's next of kin is unknown and/or burial arrangements have been made by a public administrator, a VA Medical Center, or any other authorized entity who is not the familial next of kin at the time of the Veteran's passing. The National Cemetery Administration, in conjunction with our local government partner Bexar County and other Veteran Service Organizations, welcome these Veterans into our family to ensure they are never buried alone. Bexar County with its Military & Veterans Services Program supports the memorial for unaccompanied veterans. To care for those who served our nation is a commitment and an honor for all involved. Services offered by the County's program include, but are not limited to assistance with employment, benefits, education, housing, and community resource connection. For more information call us at (210) 335-6775 or email us at

Vets@bexar.org

Subject: Spurs Night Follow-up SAMHSA Conference 30-31 January
Attachments: CIM Phase 2 Objectives and Opportunity.docx

Hello!

I'm Greg Watson, I spoke with Dr. La Pointe yesterday during the Spurs Mental Health night about a round table taking place 30-31 January. This event is being led by the Substance Abuse and Mental Health Services Administration at the Good Samaritan Veterans Outreach and Transition Center (202 Connelly St. San Antonio TX, 78203). Monday will run from 0900-1600 and Tuesday should run from 0900 to about 1300.

I sincerely apologize for the delay in getting this to you. I had misplaced your card and didn't think to check my car seat until this evening. You are more than welcome to attend one or both days and are not expected to bring anything specific. However, if you'd like to bring some of your informational brochures in case someone asks, I would recommend bringing them. I imagine whoever participates in this will likely be meeting a lot of other folks for the first time so business cards are also highly recommended.

I will only be able to attend the first day and, if you are unable to make it, I am more than happy to provide you any notes that I take as well as any relevant contacts you may be interested in.

I hope to see you tomorrow morning!

Crisis Intercept Mapping for Suicide Prevention Among Service Members, Veterans, and their Families

Phase 2: Community Strategic Action Planning

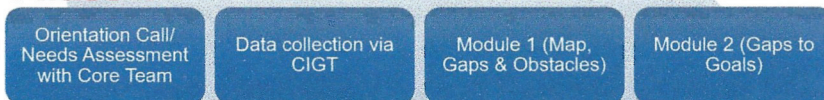

During the past year, SAMHSA’s Service Members, Veterans, and their Families (SMVF) Technical Assistance (TA) Center held a Crisis Intercept Mapping workshop within your community team to identify critical inter-organizational gaps and opportunities for strengthening the crisis care continuum in your area. This workshop concluded with the development of a Crisis Intercept Map and a Goals document which identified high-level, targeted objectives, decided on by your team addressing the essential elements for suicide prevention for SMVF in your community.

Building on this foundational work, we invite your community-wide military, Veteran, and civilian interagency team to reconvene for a facilitated 1.5-day workshop to develop comprehensive strategic action and implementation plans based on last year’s work. During this final phase of the CIM workshop process, we will be joined by expert facilitators to:

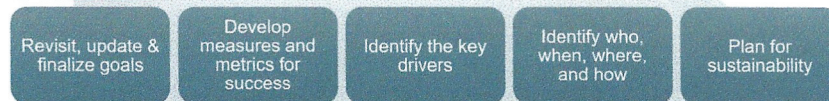

- confirm and validate your four primary goals
- structure the identified issues for root cause analyses
- review successful processes implemented by previous teams
- determine the who, when, where, and how for action item implementation
- identify resources needed
- define metrics and measures to demonstrate how your collaboration over the past year will result in outcomes for the community
